

## Lithium Ion Battery Storage With Discharge Temperature -20 To +60 30g-100g

### Our Product Introduction

more products please visit us on [rechargeable-liionbattery.com](http://rechargeable-liionbattery.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Pinsheng Energy
- Certification: CE , MSDS , UN38.8 , ISO9001
- Minimum Order Quantity: 1 unit
- Price: Negotiatial
- Packaging Details: carton box, UN box, wooden box
- Delivery Time: 10-20days
- Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
- Supply Ability: 10000pcs/month

#### Product Specification

- Warranty: 1-3 Years
- Storage Temperature: -20 To +45
- Safety Protection: Overcharge, Overdischarge, Overcurrent, Short Circuit
- Charge Cycles: 500-1000
- Discharge Temperature: -20 To +60
- Discharge Time: 2-4 Hours
- Charge Temperature: -20 To +60
- Voltage: 3.2V-3.7V
- Highlight: **3000mAh Lithium-Ion Battery,**  
**26650 Lithium-Ion Battery**

## Product Description

### Lithium-Ion Battery Storage With Discharge Temperature-20 To +60 Weight30g-100g Safety ProtectionShort Circuit

#### Product Description:

Energy Storage Lithium Battery is designed to provide reliable and safe power storage. It is made of durable and high quality materials that guarantee long-term performance and stability. The battery offers a perfect combination of energy density, discharge rate, weight, and cost-effectiveness. The battery is designed to withstand a wide range of temperature, from -20 to +60 , and offers excellent performance even in challenging environmental conditions. It also comes with a warranty of 1-3 years to ensure the quality and reliability of the product. The battery has an impressive charge cycles of 500-1000, and a weight range of 30g-100g, making it suitable for a variety of applications. The storage temperature of the product is -20 to +45 , allowing it to be used in a wide range of applications. Energy Storage Lithium Battery is the perfect choice for those who demand high quality and reliable battery for energy storage.

#### Features:

**Product Name:** Energy-Storage-Lithium Battery

**Weight:** 30g-100g

**Type:** Energy Storage Lithium Battery

**Voltage:** 3.2V-3.7V

**Safety Protection:** Overcharge, Overdischarge, Overcurrent, Short Circuit

**Charge Temperature:** -20 To +60

**Lithium Storage Battery:** Yes

**Lithium Storage Battery:** Yes

**Lithium Battery Storage:** Yes

#### Technical Parameters:

Attributes	Specification
Size	18650, 26650, 32650
Storage Temperature	-20 To +45
Charge Cycles	500-1000
Capacity	3000mAh-10000mAh
Safety Protection	Overcharge, Overdischarge, Overcurrent, Short Circuit
Type	Energy Storage Lithium Battery
Discharge Time	2-4 Hours
Warranty	1-3 Years
Charge Temperature	-20 To +60
Discharge Temperature	-20 To +60

#### Applications:

Pinsheng Energy's Energy Storage Lithium Battery is widely used in many scenarios and applications. This product has a Brand Name of Pinsheng Energy, and is made in China with CE, MSDS, UN38.8 and ISO9001 certifications. It has a minimum order quantity of 1 unit, and the price is Negotiable. Packaging Details include carton box, UN box and wooden box, and the Delivery Time is 10-20days. Payment Terms include L/C, D/A, D/P, T/T, Western Union and MoneyGram, and the Supply Ability is 10000pcs/month. The Type is Energy Storage Lithium Battery, and the Storage Temperature is -20 to +45 . The Size is 18650, 26650 and 32650, with Capacity ranging from 3000mAh to 10000mAh and Charge Cycles ranging from 500 to 1000.

This Energy Storage Lithium Battery is suitable for many applications, such as energy storage, portable power, home appliances and e-bikes. It is also a great choice for energy storage systems such as solar energy storage and wind energy storage. The lithium ion battery energy storage technology provides a long-lasting, reliable, and cost-effective storage solution for renewable energy sources. With its high energy density, low self-discharge and long cycle life, the Energy Storage Lithium Battery is ideal for many energy storage applications.

The Energy Storage Lithium Battery is a safe and reliable energy storage solution. It is designed to meet the highest safety standards and is certified to UN38.8 and MSDS requirements. The lithium battery storage technology ensures maximum safety and reliability, while also providing a low cost energy storage solution. With its high capacity and long cycle life, the Energy Storage Lithium Battery is an ideal choice for a wide range of energy storage applications.

Pinsheng Energy's Energy Storage Lithium Battery is a reliable and cost-effective energy storage solution. It is designed to provide a long-lasting and reliable energy storage system for renewable energy sources. With its high energy density, low self-discharge and long cycle life, the Energy Storage Lithium Battery is an ideal choice for many energy storage applications. With its high capacity and long cycle life, the lithium battery storage technology ensures maximum safety and reliability, while also providing a low cost energy storage solution.

### Customization:

Energy Storage Lithium Battery

Brand Name: Pinsheng Energy

Place of Origin: China

Certification: CE , MSDS , UN38.8 , ISO9001

Minimum Order Quantity: 1 unit

Price: Negotiatial

Packaging Details: carton box, UN box, wooden box

Delivery Time: 10-20days

Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram

Supply Ability: 10000pcs/month

Discharge Temperature: -20 To +60

Size: 18650, 26650, 32650

Warranty: 1-3 Years

Charge Time: 2-4 Hours

Charge Temperature: -20 To +60

Highlight:

Pinsheng Energy's Energy Storage Lithium Battery is a perfect solution for lithium storage battery, lithium ion battery storage, lithium ion battery storage system. With certifications such as CE , MSDS , UN38.8 , ISO9001, it is of high quality and is available in a variety of sizes such as 18650, 26650, 32650.

It is supplied with 1-3 years warranty and can be recharged in 2-4 hours. The temperature range for charging and discharging is -20 To +60 . The minimum order quantity is 1 unit and supply ability is up to 10000pcs/month.

### Packing and Shipping:

Packaging and Shipping

Energy Storage Lithium Battery products are packaged in strong corrugated boxes with cushioning materials to protect the batteries during shipping. All boxes are marked with the appropriate shipping labels and handling instructions.

The packages are shipped via reliable and safe transportation methods such as UPS, FedEx, and DHL. Customers can choose the most suitable shipping method according to their needs.
