

Li-Ion Battery Storage 3000mAh-10000mAh Capacity -20 To +45 Temperature

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Pinsheng Energy
- Certification: CE , MSDS , UN38.8 , ISO9001
- Minimum Order Quantity: 1 unit
- Price: Negotiatial
- Packaging Details: carton box, UN box, wooden box
- Delivery Time: 10-20days
- Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
- Supply Ability: 10000pcs/month

Product Specification

- Charge Temperature: -20 To +60
- Charge Cycles: 500-1000
- Weight: 30g-100g
- Storage Temperature: -20 To +45
- Type: Energy Storage Lithium Battery
- Size: 18650, 26650, 32650
- Charge Time: 2-4 Hours
- Discharge Temperature: -20 To +60
- Highlight: **Li-Ion Battery Storage 3000mAh,
18650 Li-Ion Battery Storage**

Product Description

Li-Ion Battery Storage 3000mAh-10000mAh Capacity -20 To +45 Temperature

Product Description:

Energy Storage Lithium Battery

Our energy storage lithium battery is a rechargeable battery that uses lithium ions and provides high energy density for a wide range of applications. It is designed to stand up to extreme temperatures and is ideal for energy storage applications. Our energy storage lithium battery offers superior performance compared to other types of batteries, with a wide temperature range of -20 to +60 for charging and -20 to +45 for storage. It is available in different sizes such as 18650, 26650, and 32650, and it has a voltage of 3.2V-3.7V with a weight range of 30g to 100g. Our energy storage lithium battery is the perfect choice for a variety of energy storage applications.

Features:

Product Name: Energy Storage Lithium Battery

Capacity: 3000mAh-10000mAh

Voltage: 3.2V-3.7V

Warranty: 1-3 Years

Type: Energy Storage Lithium Battery

Charge Temperature: -20 To +60

Keywords: lithium storage battery, lithium storage battery, lithium battery storage, lithium battery storage

Technical Parameters:

Technical Parameter	Value
Charge Temperature	-20 To +60
Size	18650, 26650, 32650
Capacity	3000mAh-10000mAh
Warranty	1-3 Years
Storage Temperature	-20 To +45
Discharge Time	2-4 Hours
Safety Protection	Overcharge, Overdischarge, Overcurrent, Short Circuit
Weight	30g-100g
Discharge Temperature	-20 To +60
Charge Time	2-4 Hours

Applications:

Pinsheng Energy's Energy Storage Lithium Battery provides an efficient, reliable and long-lasting energy storage solution for a variety of applications. With a brand name of Pinsheng Energy, a place of origin of China, CE, MSDS, UN38.8 and ISO9001 certifications, a minimum order quantity of 1 unit, a price that is negotiable, packaging details of carton box, UN box and wooden box, a delivery time of 10-20 days, payment terms of L/C, D/A, D/P, T/T, Western Union and MoneyGram, a supply ability of 10,000 pcs/month, a charge temperature of -20 to +60, a discharge temperature of -20 to +60, a voltage of 3.2V-3.7V, a storage temperature of -20 to +45 and a warranty of 1-3 Years, Pinsheng Energy's Energy Storage Lithium Battery is the perfect choice for any application that requires a lithium battery storage, a lithium ion battery storage, a lithium storage battery, or an energy storage battery.

Customization:

Energy Storage Lithium Battery

Brand Name: Pinsheng Energy

Place of Origin: China

Certification: CE, MSDS, UN38.8, ISO9001
Minimum Order Quantity: 1 unit
Price: Negotiable
Packaging Details: Carton box, UN box, wooden box
Delivery Time: 10-20 days
Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
Supply Ability: 10000pcs/month
Warranty: 1-3 Years
Charge Time: 2-4 Hours
Capacity: 3000mAh-10000mAh
Safety Protection: Overcharge, Overdischarge, Overcurrent, Short Circuit
Discharge Temperature: -20 To +60
Keywords: Lithium Storage Battery, Lithium Battery Storage

Packing and Shipping:

Packaging and Shipping -----
Energy Storage Lithium Batteries must be securely packaged and shipped to ensure safety and integrity. All batteries must be packaged in non-conductive, fireproof, and shockproof materials. The packaging must be clearly labeled with the product and battery type, as well as the shipping address. Shipping containers must be strong enough to withstand any possible impacts during transit. All batteries should be shipped via ground transportation only, to minimize the risk of fire or explosion. Any batteries shipped by air must be approved by the relevant government authority prior to shipment. The batteries must also be accompanied by a Safety Data Sheet (SDS), which must be provided to the shipping company.
