

High-capacity Lithium-ion Lifepo4 Battery with Over Discharge Protection

Basic Information

Place of Origin: China

Brand Name: Pinsheng energyModel Number: PE-10550

Product Specification

Recharge Cycles: 500Voltage: 3.7V

Applications: Portable Devices/Power Tools/Electric

Vehicles/UAVs/Robots

Capacity: 2000mAh
Charging Time: 2-3 Hours
Material: Lithium-ion
Warranty: 1 Year

• Operating Temperature: -20 To 60

Product Description:

The Rechargeable Li Ion Battery is an innovative and reliable energy source with customizable lithium battery packs. It is a high quality, long life and high capacity power supply option, with a capacity of 2000mAh and a weight of only 50g. This battery also has a fast charging time of 2-3 hours, making it a great choice for a wide range of applications, from portable devices to power tools, electric vehicles, UAVs and robots. The battery also comes with a one year warranty, ensuring peace of mind and reliable performance for years to come. Furthermore, it is suitable for use with solar energy systems or new portable power stations. With its long life, fast charging time and high capacity, this rechargeable Li Ion Battery is a great choice for a variety of applications.

Features:

Product Name: Rechargeable Li Ion Battery

Operating Temperature: -20 To 60

Applications: Portable Devices/Power Tools/Electric Vehicles/UAVs/Robots

Voltage: 3.7V Material: Lithium-ion Capacity: 2000mAh Banks Lithium Battery New Portable Power Station

Technical Parameters:

Charging Time	2-3 Hours
Туре	Rechargeable Li-Ion Battery
Material	Lithium-ion
Weight	50g
Capacity	2000mAh
Storage Temperature	-20 To 45
Recharge Cycles	500
Safety Certification	CE/RoHS/UN38.3
Rechargeable	Yes
Applications	Portable Devices/Power Tools/Electric Vehicles/UAVs/Robots

Applications:

Pinsheng energy's PE-10550 Rechargeable Li Ion Battery is the perfect choice for those looking for a new portable power station. This lithium-ion battery is made of quality materials and has a capacity of 2000mAh. The operating temperature range is -20 To 60, and it comes with great protection against overcharge, over discharge, over current, and short circuit. It also has a recharge cycle of 500, making it a reliable and long-lasting power source. Whether you need to power your laptop, cell phone, or other devices, this rechargeable Li Ion Battery from Pinsheng energy is the perfect choice.

The PE-10550 is an ideal choice for those looking for a reliable lifepo4 battery. Its high capacity and long recharge cycle make it suitable for a variety of applications. It is also lightweight and portable, making it easy to take with you wherever you go. Its advanced protection features ensure that your devices are always powered safely and securely.

The PE-10550 rechargeable Li Ion Battery from Pinsheng energy is the perfect choice for those looking for a new portable power station. With its reliable performance and long recharge cycle, it is sure to meet your needs. Get yours today and enjoy the convenience and reliability of a new portable power station.

Customization:

Customized Rechargeable Li Ion Battery

Brand Name: Pinsheng energy Model Number: PE-10550 Place of Origin: China

Voltage: 3.7V

Charging Time: 2-3 Hours Material: Lithium-ion Capacity: 2000mAh

Protection: Overcharge/Over Discharge/Over Current/Short Circuit

Ideal Choice for Solar Energy System, Banks Lithium Battery, New Portable Power Station

Packing and Shipping:

Rechargeable Li Ion Battery Packaging and Shipping:

The Rechargeable Li Ion Battery should be packaged in a sturdy box or container with the appropriate cushioning material to prevent shifting and ensure safe delivery. The package should be sealed with waterproof tape.

The shipping of the Rechargeable Li Ion Battery should be done using a reliable carrier like FedEx, UPS, or DHL. The package should be labeled clearly with the recipient's address and contact information.
