## Product Description

### Product Description:

Product Overview: Vehicle Lithium Ion Battery

Battery type: Lifepo4

Place of Origin: Hunan, China

Charge rate: 0.5C Max 1C

Norminal Voltage: 72V DC Or Customized

Type: Vehicle Lithium Ion Battery

This Vehicle Lithium Ion Battery is specially designed to provide high-performance and long-lasting power for various types of vehicles.

Whether you are using a motorcycle, scooter, ebike, or electric car, this battery is the perfect choice for your vehicle's power needs.

The battery is made of Lifepo4, a powerful and reliable type of lithium ion battery known for its high energy density, long lifespan, and low self-discharge rate. With this type of battery, you can expect a longer running time and more stable performance for your vehicle.

Manufactured in Hunan, China, this Vehicle Lithium Ion Battery is made with the highest quality materials and advanced technology to ensure its safety, durability, and efficiency. It has been tested and certified to meet international standards, making it a trustworthy and dependable choice for your vehicle.

The charge rate of this battery is 0.5C Max 1C, which means it can be charged at a maximum rate of 1 times its capacity. This allows for faster charging times and more convenience for users. The Norminal Voltage is 72V DC, but it can also be customized according to your specific vehicle needs.

One of the key features of this Vehicle Lithium Ion Battery is its versatility. It can be used for various types of vehicles, making it a cost-effective and practical choice for those who own multiple vehicles. Whether you are using it for your motorcycle, scooter, ebike, or electric car, this battery is designed to provide optimal performance and reliability.

In conclusion, if you are looking for a high-quality and efficient battery for your vehicle, look no further than the Vehicle Lithium Ion Battery. With its Lifepo4 battery type, made in China, and its charge rate and voltage options, this battery is the perfect choice for all your vehicle power needs. Don't settle for less, choose the best for your vehicle.
