

High Efficiency Portable Devices/Power Tools Rechargeable Li Ion Battery - 15C To 55C

Our Product Introduction

more products please visit us on rechargeable-liionbattery.com

Basic Information

- Place of Origin: China
- Brand Name: Pinsheng energy
- Certification: CE , MSDS , UN38.3,IES
- Model Number: PE-10550
- Minimum Order Quantity: 1 unit
- Price: Negotiatial
- Packaging Details: carton box, UN box, wooden box
- Delivery Time: 20-30days
- Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
- Supply Ability: 30000pcs/month

Product Specification

- Protection: Overcharge/Over Discharge/Over Current/Short Circuit
- Warranty: 3 Year
- Applications: Portable Devices/Power Tools
- Rechargeable: Yes
- Power: 3.072KWh
- Storage Temperature: -20 To 55
- Capacity: 120Ah
- Voltage: 25.6V Or Customized
- Highlight: **power Tools Rechargeable Battery,
High Efficiency Rechargeable Battery,
15c 55C Rechargeable Battery**

Product Description:

Rechargeable Li Ion Battery - Your Ultimate Power Solution

Rechargeable Li Ion Battery is a high-performance battery designed for portable devices and power tools. With its advanced technology and superior materials, this battery provides a reliable and long-lasting power source for all your electronic devices.

Key Features

High Energy Density: With a capacity of 3.072KWh, this battery provides a high energy density, ensuring longer run time for your devices.

Long Cycle Life: The use of high-quality lithium-ion material in the construction of this battery results in a longer cycle life, making it a durable and cost-effective choice.

Quick Charging: The Rechargeable Li Ion Battery has a fast charging time of only 2-3 hours, allowing you to get back to using your devices in no time.

Wide Operating Temperature Range: This battery can operate in a temperature range of -20 to 60 , making it suitable for use in various environments.

Environmental Friendly: Made with environmentally friendly materials, this battery is a sustainable and eco-friendly option for your power needs.

Applications

Rechargeable Li Ion Battery is ideal for use in portable devices such as smartphones, tablets, laptops, and power tools like drills, saws, and other cordless equipment. Its compact size and high performance make it a perfect fit for all your on-the-go power needs.

Why Choose Rechargeable Li Ion Battery?

There are many reasons to choose Rechargeable Li Ion Battery for your power needs:

Excellent Performance: This battery delivers consistent and reliable power, ensuring your devices run smoothly and efficiently.

Advanced Technology: The use of advanced technology in the construction of this battery makes it a safe and efficient power source.

Cost-Effective: With its long cycle life and fast charging time, this battery offers a cost-effective solution for your power needs.

Trusted Brand: Rechargeable Li Ion Battery is brought to you by Banks Lithium Battery, a trusted brand known for its high-quality and innovative products.

Upgrade to Rechargeable Li Ion Battery and experience the convenience, reliability, and superior performance of this advanced lifepo4 battery. With its long-lasting power and eco-friendly design, it is the perfect choice for all your portable devices and power tools.

Features:

- Product Name: Rechargeable Li Ion Battery
- Storage Temperature: -20 To 55
- Charging Time: 2-3 Hours
- Type: Rechargeable Li-Ion Battery
- Safety Certification: CE/RoHS/UN38.3
- Operating Temperature: -20 To 60
- Long Lifespan
- High Energy Density
- Lightweight and Compact Design
- Fast Charging Time
- Wide Operating Temperature Range
- Safe and Reliable
- Compatible with Various Devices
- Environmentally Friendly
- Suitable for Solar Energy Systems
- Efficient and Sustainable Power Source
- Long-lasting and Cost-effective
- Versatile Application in Electronic Devices
- High Quality Lifepo4 Battery Cells
- Customizable Lifepo4 Battery Pack

Technical Parameters:

Product Name	Rechargeable Li Ion Battery
Protection	Overcharge/Over Discharge/Over Current/Short Circuit
Capacity	120Ah
Operating Temperature	-20 To 60
Power	3.072KWh
Warranty	3 Years

Material	Lithium-ion
Recharge Cycles	3000
Safety Certification	CE/RoHS/UN38.3
Storage Temperature	-20 To 55
Rechargeable	Yes
Key Features	Banks Lithium Battery, LiFePO4 Battery, LiFePO4 Battery Pack

Applications:

Rechargeable Li Ion Battery - Pinsheng Energy

Brand Name: Pinsheng Energy

Model Number: PE-10550

Place of Origin: China

Certification: CE , MSDS , UN38.3,IES

Minimum Order Quantity: 1 unit

Price: Negotiatial

Packaging Details: carton box, UN box, wooden box

Delivery Time: 20-30days

Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram

Supply Ability: 30000pcs/month

Safety Certification: CE/RoHS/UN38.3

Power: 3.072KWh

Charging Time: 2-3 Hours

Type: Rechargeable Li-Ion Battery

Operating Temperature: -20 To 60

If you are looking for a reliable and high-quality rechargeable lithium-ion battery, then Pinsheng Energy's PE-10550 is the perfect choice for you. This new portable power station is designed to provide efficient and long-lasting energy storage for various applications and scenarios.

Our rechargeable Li-Ion battery is perfect for use in banks, homes, offices, and even outdoor activities. With a power capacity of 3.072KWh, it can provide sufficient energy for your devices and appliances. It is also equipped with advanced safety certifications including CE, RoHS, and UN38.3 to ensure the highest level of safety for our customers.

The PE-10550 is designed and manufactured in China, guaranteeing its quality and reliability. It has also been tested and certified by IES, ensuring its overall performance and efficiency. With a minimum order quantity of only 1 unit, it is perfect for individual or business use.

Our LiFePO4 battery has a fast charging time of 2-3 hours, allowing you to quickly and easily recharge it for continuous use. It also has an operating temperature range of -20 to 60 , making it suitable for various environments and climates.

The PE-10550 can be easily transported and stored in different packaging options such as carton boxes, UN boxes, and wooden boxes.

This makes it convenient for customers to use and maintain their rechargeable batteries.

At Pinsheng Energy, we prioritize customer satisfaction and offer flexible payment terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram. We also have a supply ability of 30000pcs/month, ensuring that our customers' demands are met in a timely manner.

Invest in Pinsheng Energy's rechargeable Li-Ion battery and enjoy the convenience, efficiency, and reliability of our energy storage system. Contact us now for more information and to place your order!

Customization:

Rechargeable Li Ion Battery - Customized Service

Brand Name: Pinsheng Energy

Model Number: PE-10550

Place of Origin: China

Certification: CE, MSDS, UN38.3, IES

Minimum Order Quantity: 1 unit

Price: Negotiatial

Packaging Details: Carton Box, UN Box, Wooden Box

Delivery Time: 20-30 days

Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Supply Ability: 30000pcs/month

Material: Lithium-ion

Protection: Overcharge/Over Discharge/Over Current/Short Circuit

Operating Temperature: -20 To 60

Charging Time: 2-3 Hours

Type: Rechargeable Li-Ion Battery

Our Rechargeable Li Ion Battery is a high-quality product designed for solar energy systems. Made with lithium-ion material, it ensures long-lasting and reliable power supply. With our customized service, you can choose the best fit for your specific needs. Our batteries have been certified with CE, MSDS, UN38.3, and IES, ensuring their safety and quality standards.

We offer flexible minimum order quantities and negotiable prices to meet your unique requirements. The packaging options include carton box, UN box, and wooden box to ensure safe transportation. With a delivery time of 20-30 days, we guarantee prompt and timely delivery of your orders. We accept various payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram for your convenience.

Our factory has a monthly production capacity of 30000pcs, ensuring a stable and sufficient supply for your business. Our batteries are equipped with protection against overcharge, over discharge, over current, and short circuit, providing a safe and reliable operation. They can operate in a wide temperature range from -20 to 60 and have a fast charging time of 2-3 hours.

Choose our Rechargeable Li Ion Battery and enjoy a customized and efficient power solution for your solar energy system. Contact us

now for more information and to place your order!
