- Highlight: Specific Vehicle Lithium Ion Battery , Customizable Vehicle Lithium Ion Battery , 72V DC Lithium Ion Battery

Product Description

Product Description:

Product Overview: Vehicle Lithium Ion Battery

Type: Vehicle Lithium Ion Battery

Charge rate: 0.5C Max 1C

Battery type: Lifepo4

Discharge rate: 1C Max 2C

Norminal Voltage: 72V DC Or Customized

This high performance Vehicle Lithium Ion Battery is the perfect choice for electric car batteries. With its advanced technology and eco-friendly design, it is the ideal solution for a long-lasting and efficient power source.

With a charge rate of 0.5C Max 1C, this battery can be fully charged in no time, making it perfect for fast charging needs. The Lifepo4 battery type ensures a long cycle life, providing reliable power for your vehicle for years to come.

Not only is this battery durable and lightweight, but it also comes with a three-year warranty, giving you peace of mind and confidence in your purchase. Its efficient design makes it a reliable and cost-effective choice for any electric vehicle.

The nominal voltage of 72V DC can also be customized to fit your specific vehicle needs. This flexibility makes it a versatile option for a variety of electric cars.

In addition to its impressive features, this Vehicle Lithium Ion Battery is also eco-friendly, promoting a sustainable and clean energy source for transportation. With its fast charging capabilities and long cycle life, it is a cost-effective and environmentally responsible choice.
