PINSHENG Solar air Conditioner 12000BTU 18000BTU 24000BTU AC/DC Hybrid Solar Powered Energy air Conditioner for Home Heating and Cooling

Our Product Introduction

more products please visit us on rechargeable-liionbattery.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Pinsheng
- Certification: CE , MSDS , UN38.3,IES
- Model Number: TC-001
- Minimum Order Quantity: 1 unit
- Price: Negotiatial
- Packaging Details: carton box, UN box, wooden box
- Delivery Time: 10-20days
- Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
- Supply Ability: 10000pcs/month

Product Specification

- System Type: Solar Energy System
- System Type: Wall-mounted, Stackable, Rack-mounted
- Application: Home/Plant/electrical Equipment
- Battery Type: Lithium Ion / LiFePO4
- Technical Support: Solar System Installation Vedio
- Load Power (W): 3KW~100KW
- Inverter Type: String Or Micro Inverter
- Installation Manual: Yes
- Highlight: 12000BTU Solar air Conditioner,
24000BTU Solar air Conditioner,
18000BTU Solar air Conditioner

Product Description:

The Solar Energy System is a type of home power system that uses solar panels to harness energy from the sun. This energy is then stored in a lithium battery or storage battery, allowing for consistent power output even when the sun isn't shining. The system also includes a range of technical support, including a solar system installation video that makes installation easy and hassle-free. One of the key benefits of the Solar Energy System is its versatility. The system is available in a range of load powers, from 3KW to 100KW, making it suitable for a wide range of applications. Whether you're looking to power a small home or a large commercial building, this system is capable of meeting your needs. Overall, the Solar Energy System is a reliable, efficient, and sustainable solution for powering homes and businesses. With its wide availability and range of technical support, it's a convenient choice for those looking to switch to clean energy. So if you're looking for a reliable and sustainable energy solution, the Solar Energy System is definitely worth considering.

Features:

Product Name: Solar Energy System

Availability: Widely Available In Most Countries

Battery Type: Lithium Ion / LiFePO4

Load Power (W): 3KW~100KW

System type: Solar Energy System

Communication: RS485/WIFI/GPRS

Features:

Home power system

Solar panel

Storage battery

Technical Parameters:

System Type	Solar Energy System
System Type	Wall-mounted, Stackable, Rack-mounted

Load Power (W)	3KW~100KW
Availability	Widely Available In Most Countries
Application	Home/Plant/electrical Equipment
Installation Manual	Yes
Communication	RS485/WIFI/GPRS
Inverter Type	String Or Micro Inverter
Power Output	Above 50 KWh
Battery Type	Lithium Ion / LiFePO4

This Solar Energy System product is suitable for home power system, plant, and electrical equipment. It has a load power range of 3KW~100KW, and a power output of above 50 KWh. The system is widely available in most countries and comes with an installation manual. Communication is possible through RS485, WIFI, and GPRS. The inverter type can be string or micro inverter. The battery type can be either lithium ion or LiFePO4.

Applications:

The Pinsheng TC-001 Solar Energy System is a high-quality product that is manufactured in China and is widely available in most countries around the world. It has various applications and is suitable for use in homes, plants, and electrical equipment. With a power output of above 50 KWh, this system is reliable and efficient.

The system features a storage battery, which is a lithium battery that is designed to store energy from the solar panel. This ensures that there is a continuous supply of power even when there is no sunlight. The solar panel is an integral part of the system and is responsible for converting solar energy to electrical energy. This ensures that the system is environmentally friendly and does not produce any harmful emissions.

The Pinsheng TC-001 Solar Energy System is certified by CE, MSDS, UN38.3, and IES, which is an indication of its quality and efficiency. It has a minimum order quantity of 1 unit and the price is negotiable. The packaging details include carton box, UN box, and wooden box, which ensures that the product is delivered in good condition.

The delivery time for this product is 10-20 days, and it can be paid for using L/C, D/A, D/P, T/T, Western Union, or MoneyGram. The system has a supply ability of 10000pcs/month, which makes it readily available for customers who need it.

Technical support for the Pinsheng TC-001 Solar Energy System is available in the form of a solar system installation video, which ensures that customers can install the system easily. With its high-quality features and various applications, the Pinsheng TC-001 Solar Energy System is an excellent choice for anyone who needs a reliable source of power.

Energy Storage

Various types of energy storage

Long life span

Powerful features

Easy to operate

App control

Solar Panels

New monocrystalline Solar panels

5 QUALITY FEATURES

3 CORE COMPETENCIES THE INDUSTRY ABSOLUTE LEADER

Environmental Protection	Economy	Long life span	Smart
app control	Reasonable design	Simple operation	Security without worry

Customization:

Brand Name: Pinsheng
Model Number: TC-001
Place of Origin: CHINA

Certification: CE , MSDS , UN38.3,IES
Minimum Order Quantity: 1 unit
Price: Negotiatial
Packaging Details: carton box, UN box, wooden box
Delivery Time: 10-20days
Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
Supply Ability: 10000pcs/month
Application: Home power system, Hybrid system, solar energy, electrical Equipment
Battery Type: Lithium Ion / LiFePO4
Availability: Widely Available In Most Countries
Communication: RS485/WIFI/GPRS
Inverter Type: String Or Micro Inverter

Support and Services:

Our Solar Energy System product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction:

Initial consultation and assessment to determine system requirements

Design and engineering of customized solar energy system

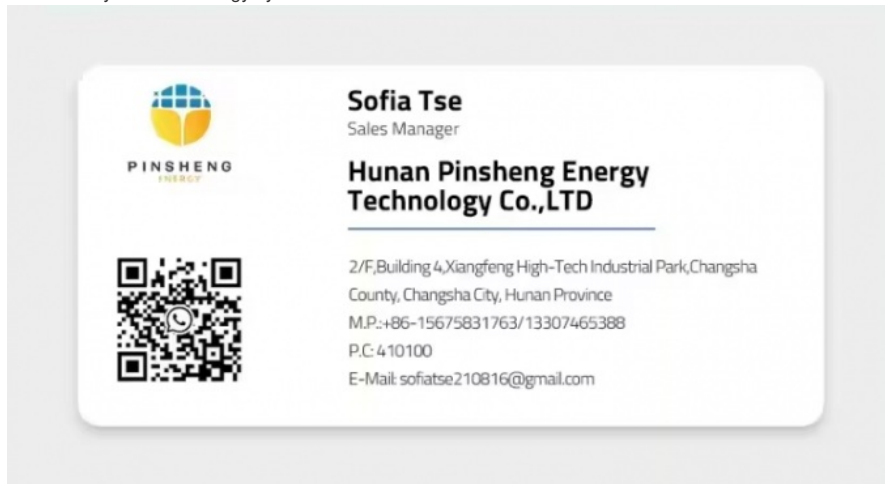

Installation and commissioning of system

Ongoing maintenance and monitoring

Remote performance monitoring and troubleshooting

24/7 technical support

Our team of experienced technicians and engineers are dedicated to providing exceptional support and services to ensure the long-term success of your solar energy system.
