

Long-lasting Stacked Lithium Ion Battery Discharging 28.8V -20°C 60°C

Our Product Introduction

Basic Information

- Brand Name: Pinsheng
- Certification: CE , MSDS , UN38.8 , ISO9001
- Model Number: PE-48200
- Minimum Order Quantity: 1 Unit
- Price: Negotiatial
- Packaging Details: Carton Box, UN Box, Wooden Box
- Delivery Time: 20-30days
- Payment Terms: L/C , D/A , D/P , T/T , Western Union , MoneyGram
- Supply Ability: 10000pcs/month

Product Specification

- Working Current: 50A
- Discharging: 28.8V
- Working Temperature: -20°C ~ 60°C
- Nominal Voltage: 48v 60v 72v 96v
- Discharge Current: 25C
- Dimension: 11.8 X 102 X 314 Mm
- Installation Way: Stackable
- Min Capacity: 10.0Ah
- Highlight: **28.8V lithium ion battery ,
stacked lithium ion battery with warranty,
high power battery for extreme temperatures**

Product Description

Product Description:

Introducing the High Power Lithium Ion Battery, a cutting-edge solution designed for a wide range of applications. This deep cycle rechargeable battery boasts a remarkable Discharge Current of 25C, ensuring optimal performance and reliability in demanding situations.

With a minimum capacity of 10.0Ah, this battery provides ample power to meet your energy needs, whether in industrial settings, recreational vehicles, or renewable energy systems. The High Power Lithium Ion Battery is engineered with the latest version design, incorporating advanced technology to deliver superior efficiency and longevity.

One of the key highlights of this battery is its impressive Energy Density of 150 Wh/kg, allowing for a compact and lightweight solution without compromising on power output. Whether you require a reliable energy source for portable devices or stationary applications, this battery offers exceptional performance in a sealed type configuration.

Designed for convenience and versatility, the High Power Lithium Ion Battery features a sealed type construction, offering protection against environmental factors and ensuring safe operation in various conditions. This LiFePO4 battery is known for its robustness and durability, making it an ideal choice for both professional and personal use.

Equipped with an external module, this battery integrates seamlessly with Wi-Fi connectivity, enabling remote monitoring and control for enhanced user experience. Stay informed about the battery status and performance metrics, allowing you to optimize usage and ensure efficient operation at all times.

Features:

Product Name: High Power Lithium Ion Battery

Rated Voltage: 11.1V

Discharging: 28.8V

Working Current: 50A

Dimension: 11.8 X 102 X 314 Mm

Min Capacity: 10.0Ah

Technical Parameters:

Working Current	50A
Installation Way	Stackable
Rated Voltage	11.1V
Working Temperature	-20°C ~ 60°C
Discharging	28.8V
Material	Steel
Discharge Current	25C
Sealed Type	Sealed
Nominal Voltage	48v 60v 72v 96v
Dimension	11.8 X 102 X 314 Mm

Applications:

Product Application Occasions and Scenarios for Pinsheng High Power Lithium Ion Battery PE-48200

The Pinsheng PE-48200 high power lithium ion battery is a versatile and reliable energy storage solution suitable for a wide range of applications. With its cutting-edge LiFePO4 technology and latest version design, this battery offers exceptional performance and durability. Certified with CE, MSDS, UN38.8, and ISO9001, you can trust in the quality and safety of this product.

Whether you are in need of a power source for industrial, commercial, or personal use, the Pinsheng PE-48200 battery is a great choice. Its sealed type construction and waterproof level of IP20 make it ideal for outdoor and rugged environments where protection from moisture and dust is essential.

With a rated voltage of 11.1V and energy density of 150 Wh/kg, this battery packs a powerful punch in a compact size. The dimensions of 11.8 x 102 x 314 mm allow for easy installation in various devices and equipment.

Whether you need a single unit or a larger quantity, the minimum order quantity of 1 unit and negotiable price make it convenient to purchase according to your needs. The packaging details include options such as carton box, UN box, and wooden box for added protection during shipping and storage.

With a delivery time of 20-30 days, you can expect prompt shipment of your order. Various payment terms such as L/C, D/A, D/P, T/T, Western Union, and MoneyGram offer flexibility in completing your purchase. Additionally, the supply ability of 10000pcs/month ensures a steady availability of this high-quality battery directly from the original factory.
